

T-300 Extreme®

Miller Weldmaster – T-300 Extreme®

Miller Weldmaster T-300 Extreme® combines versatility and precisely controlled operating parameters within an ergonomic design and interface for easy operation, speed, accuracy, and productivity.

- Weld rollers are independently controlled which helps produce an expanded range of products and materials
- Easy operation with our touch screen and 25 memory settings
- Guides and accessories to weld hems, overlaps, hem with rope...
- Equipped with dual arms: The “Table Arm” takes care of straight seams for applications like tarps, awning and tents; while the curve arm manages curves and unique shapes for applications like boats and inflatables
- Built with one-person operation in mind
- It comes with a speed of up to 30 meters per minute*
- Welds PVC, PE, PU and many more
- Can weld acrylic with a thermo bonding tape**
- Comes furnished with the new “Seam Screen.” It allows users to digitally control all welding parameters in up to eight different languages
- Quick, repeatable, precision head adjustments
- The T-300 utilizes both the Hot Air and Hot Wedge rotary heat sealing systems
- Compatible with any world power source, with worldwide service, training, operation and installation.
- Its solid steel frame makes it the most durable system on the market today

And many more available upon request!

Technical Specifications

Type	Miller Weldmaster T-300 Extreme™
Voltage	15 Amperes - Single phase - 400 Volts 25 Amperes - Single phase - 230 Volts
Air Requirement	85 liters/min at 6.2 Bar
Power Consumption	Approx. 6Kw
Max. Temperature (°C)	Hot Air: 750°C - Hot Wedge: 450°C
Throat width	0.83M
Overall Length	1.65M
Overall Width	0.76M
Weight	Approx. 231KG
Seam width	10 to 50mm (1/2" to 2")**
Welding Speed	Up to 30M/min (100ft./min)*
Material you can weld	PVC laminated fabrics, Vinyl coated fabrics, Vinyl Films, and Polyurethane (PU) coated fabrics, Polyurethane films, Polypropylene-coated fabrics, Polyethylene (PE), Thermoplastic rubber fabrics, acrylics and others.
The T-300 Extreme will produce:	Tarpaulins, billboards, banners, awnings, tents, pools, inflatables and many more...

*Depending on the application, the seam width and the type of material used.

**Additional accessories might be necessary
