

EFI VUTEk TX3250r

Take On the Soft Signage and Textile Markets with High Production and Versatile Dye-Sublimation Printing

The next-generation, 3.2-metre EFI™ VUTEk® TX3250r dye-sublimation fabric printer combines industrial productivity, high-quality output and application versatility to meet the growing demand and requirements of the soft signage and digital textile market.

With the ability to print direct to textile and transfer paper, the VUTEk TX3250r is an ideal solution if you are looking to grow your soft signage and textile business with a production-level printer, or if you want to diversify your offering by converting traditional vinyl signage to a product with lower shipping costs, a greener footprint, easier installation and higher margins.

The dye-sublimation technology of the VUTEkTX3250r sublimates, or dyes, the fabric directly so the textile retains the drape and soft hand customers prefer. It produces brighter colours than other textile printing methods and is completely odourless. Produce images that can be washed and dried without wrinkling, folded without leaving marks, and reused.

Get Industrial Productivity and High Image and Colour Quality in One Printer

- EFI's new fast drying ink enables productivity up to 100 m²/hr direct to textile and transfer paper.
- Combined high resolution and eight-colour printing capability for dazzling print displays and high-density backlight signs.

- Switch to high-speed, Fast-4TM printing to produce high-volume flag and banner jobs with high-definition image quality and excellent colour saturation on both sides.
- Rugged, industrial design makes it suitable for 24/7 operation.

Expand Your Market Opportunities with a Versatile Dye-Sublimation Printer

- Prints direct to textile or indirect via transfer process, enabling you to offer more materials and save money by using lower cost materials.
- Eight-colour switchable to Fast-4 printing allows you to compete for premium-margin indoor, retail graphics and high-volume flag and banner jobs.
- Application possibilities are limitless with 3.2 metres of printing width.
- Perfect for producing soft signs, banners, point-of-sale and flags, as well as home and commercial applications such as wall coverings and furnishings.

VUTER DIGITAL INKJET SOLUTIONS

EFIVUTEkTX3250r

Features and Specifications

- Eight-colour printing for outstanding image quality switchable to Fast-4™ for high productivity
- High Definition, up to 1080 dpi image quality and VUTEk smoothing
- Prints quality output up to 100 m²/hr
- Multiple roll capability
- Sturdy production design for around the clock operation
- · Fully enclosed design for operator safety

Media/Handling

- Direct to textile or transfer paper up to 3.2 metres wide
- · Type: Roll to roll up to 3mm thick
- Multi-roll capable (2-152.4 cm rolls)
- · Heavy-duty unwinder included

Printing Technology

- Seiko drop-on-demand Piezo inkjet technology
- User selectable 540 dpi or 1080 dpi
- One-year printer warranty (includes parts, labour and Seiko inkjet heads)
- 24 x 7 technical support

Formats

- · All popular desktop file formats, including
- PostScript®3, EPS, TIFF, PDF, RGB/CMYK

Environmental Considerations

- Compressed Air: 6,7 minimum 10,5 bar maximum, at 113 lpm; dry air only (not included)
- Fully enclosed design for operator safety and environmental considerations
- Temperature: 20 °C to 26 °C
- Humidity: 40% to 80% (non condensing)
- Weight: 3184 kg
 Height: 174 cm
 Width: 589 cm
 Depth: 168 cm

 71 cm unwinder

+ 38 cm rewinder

Electrical: 3-Phase, 80 amp, 200-230 volt supply

EFI Fiery XF RIP

- Optimised for use with the EFI™ Fiery® XF RIP
- Advanced, easy-to-use, wizard-guided colour tools for consistent, predictable, high-quality colour
- Powerful production tools like nesting, step and repeat, scaling, cropping, and tiling
- Advanced ICC colour management for reliable colour, quality output and proofing-quality colour
- Scalable, versatile platform grows with your needs as your business grow

EFI Inks

 EFI Inks are supplied in 5.0 litre containers available in cyan, magenta, yellow, black, light cyan, light magenta, light yellow and light black

Enhanced Service Plans (ESP)

- EFI's industry-leading service and support program
- · Predictable uptime to maximise profitability
- Thirteen months of Essential level coverage provides 24-business hour (three-business day) response
- · Eligible for upgrade to:
 - Critical Providing eight-business hour (one-business day) response
 - ProActive Providing 16-business hour (two-business day) response
