

PNEUMATIC MACHINE TO SET EYELETS ON PVC BANNER MATERIAL

PLASTGROMMET APPLICATIONS

OPTIONAL ELEMENTS

TECHNICAL DATA

Model	PMS 060
PG Eyelets	Ø 12, 16 mm
Height	30 cm
Throat depth	9 cm
Width	13 cm
Depth	22 cm
Air supply	6 Bars.
Liters per cycle	3,8 l.
Weight	9,15 Kg.

- Low cost pneumatic machine to set eyelets in one operation.
- Works on PVC banner materials, not textiles, with our patented PLASTGrommet die system.
- Operator will place the eyelet on the die and the machine will only work when the cover has come all the way down.
- No dies adjustment necessary and easy change between sizes.
- Available for PLASTGrommet Ø 12 with washer and Ø 16 mm without washer.
- No maintenance required and we recommend a small air compressor with pressure gauge and air filter.
- EU made and CE mark. It has an acrylic protection on the front to cover the cutting area.
